

## ALTERNATE BUS ROUTES

Where unsatisfactory road or transportation conditions make it advisable, the Board of Directors may require the parents or guardians of public and non-public school pupils to furnish transportation for their children up to two miles to connect with school transportation vehicles. The parent or guardian shall be reimbursed for such transportation by the Board of Directors at the rate of twenty-eight cents per mile per day, one way, per family for the distance from the pupil's residence to the bus route.

The superintendent or designee shall determine when using alternate bus routes are advisable and announce the use of alternate routes. The alternate bus routes to be utilized will be published in the monthly school bulletin prior to winter.
